

# Kindergarten

**Teachers:** Mrs Bell and Mrs Regts

**Education Assistant:** Mrs Baldwin-Jones and Miss Frankland

## Hello and Welcome to Kindy!

The Kindergarten students start the year off learning the rules and routines of school. During this time, they also explore and discover many new things!

We have an open classroom design, where we play together and complete our morning routine before splitting off into our animal groups. At the end of the day we discuss any exciting events that have happened through the day and hand out any notes or messages.

We provide many hands-on experiences to assist your child's learning throughout the year. We focus on developing your child's Social/Emotional, Creative, Physical (Gross and Fine motor), Cognitive and Language development.

In English we follow the 'Jolly Phonics' program to learn the alphabet sounds and also focus on Phonological Awareness which is essential when learning how to read.

In Mathematics we will learn about numbers, shapes and sizes. There is a large focus on Mathematical language, developed during small group hands-on experiences.

## 2023

Over the year we will be teaching the children social skills that they will use throughout life, such as sharing, taking turns, cooperating, negotiating and playing nicely. We use puppets and role play to help teach these skills.

We will spend lots of time outdoors where students get the opportunity to play in the sand pit, ride on bikes, make wonderful creations in the mud kitchen and enjoy time on the play equipment. Students also get many

opportunities to explore the garden where they will learn how to take care of plants and grow some delicious vegetables to eat!

At Two Rocks Primary School there are lots of events to look forward to

throughout the year, including sports carnival, book week parade and Christmas concert.

We look forward to having lots of fun!
