

## Welcome to the 2023 Art Class!

Each week, students from Years One to Six participate in a one hour art lesson where they focus on the 7 Elements of Art. These lessons are specifically designed to meet the students' educational needs and at times, are used in conjunction with their classroom subjects such as Science and HASS.

The students are encouraged to use their creativity and individuality to produce unique pieces of work which are planned and then self-reflected upon when completed.

The Aboriginal seasons, local flora and fauna as well as famous artists (Emily Kngwarreye, Victor Vasarely, M.C Escher and Picasso to name a few) feature in the learning which takes place in the Art Room. The students take inspiration from artists and their techniques to produce their own masterpieces which are displayed across the school for all to enjoy.

Below are some photos to display a snapshot of the Art Room and what happens in there. Enjoy!
