

Year 4

Teachers: Ms Scholte and Mr Le Lievre

Assisted by: Miss Murray

Welcome to Year 4!

This year we are excited to begin our three year loop, taking us from Year 4 up to Year 6. We have started the year off by setting up our classroom routines and our group norms which will support us throughout our learning journey over the next few years.

Mathematics will be led by Ms Scholte and will focus on using our knowledge and skills from previous years to delve, in more detail, in fractions and decimals, area, time and division as well as continuing to develop addition, subtraction and multiplication strategies. We incorporate our whole school programs and include warm ups and explicit teaching along with daily recall of facts.

English will be led by Mr Le Lievre and includes programs such as English Stars, English Skills, VCOP, Novel Studies, Writing Time, Soundwaves Spelling as well as Writing warm ups and Spelling warm ups. This term there is a focus on reading and learning new vocabulary as well as punctuation and grammar. In English we are using iPads to continuing to develop our ICT capabilities.

The Kitchen Garden program continues this year and we have already planted our first seedlings in the garden beds. The students will have Mrs Croker for Chinese. They will have Mrs King for Music, Mrs Wagstaff for Art and Mr Schweda for Sport and HASS. Our designated Library days are Monday.
